

What's in a Name ?

Project Josiah

King Josiah was one of the Old Testament kings who took down the High Places where babies were sacrificed to Baal and Molech. Babies and children were burned on the altars to appease the gods. The Bible speaks highly of many kings but notes that only two took down the High Places. The multiple references to this omission indicate the error of this negligence on the part of the leaders of Israel. This serves as a warning to the Church today to not neglect the eradication of the High Places: "Abortion Centers" Abortion is a sacrifice to the gods of convenience, greed, self, lust, sexual immorality and pride!

2 Kings 23:10

Marching is great! But the sidewalk in front of an abortion center is the last line of defence for mother and baby. The Democrats want to remove your right to pray and sidewalk counsel at the abortion centers. It's time for the Church to exercise this right in greater numbers!

Let's save babies and moms!

*We believe
it is the sacred duty of
Evangelical Christians to
actively oppose abortion.
Praying at abortion centers is
easy. Your Presence is a witness
of the Love of Christ!
You can hold a positive sign, or
just pray. Many women change
their minds when they read a
sign or see someone praying.*

*Rescue those who are being taken
away to death; hold back those who
are stumbling to the slaughter.*
